Do what thou wilt shall be the whole of the Law.

It is entirely false that I have quarrelled with you as to expenses of G.H.Q., as you maliciously wrote.

I have not quarrelled with you at all: I am exhibiting zeal in service towards you, as my oath demands.

You wished to succeed me in the A.A.A. and you knew that to do so you must assume all my responsibilities. You did this; but you tried to use the worldly-wise methods of compromise. You also thought subconsciously that you could succeed at once by putting me out of the way. Hence your conduct while I was in Knockholt, and indeed you did make me very ill.

You then came to a better frame of mind, and things were all well for awhile. Then you went wrong again - as shown by your insensate behaviour at Bandol.

My journey to Lisbon gave you your second chance. You thought you would starve me out or get me into serious trouble there. You seem to have lost all sense of the fact that the Masters arrange all these matters. You have permitted yourself to criticise what you ignorantly suppose to be my personal conduct, and you have spoken and written disrespectfully of me to others. The usual reward! I admitted you to familiarity, and like an ill-trained lackey, you take liberties. But this is not the point. I care nothing at all for personal affronts. The point is that you have allowed your personal relations to distract you from the G..W.. What could I do but suspend you, when you were clearly neglecting your duties as the representative of the Order?

Your attempt to serve God and Mammon has naturally resulted in your being kicked out by both.

Owen certainly sounds likely. Owen = 178 = 178 = the bird!

Your quarrelling with me is not my quarrelling with you, as you falsely wrote to Cora. I'm perfectly friendly.

You never did do what you say you can "no longer" do. You have never introduced me person of any importance.

You see when you say that I refuse to help Marie. I write her that I will. It is she that does not reply to my letters.

"Here are two of them and they both bounce." I still do not understand this sentence, even after study of the context. Yet you use me the phrase! (I get a feeling of triumphant malice with this & other of your outbursts.) Can you wonder that I doubt your sanity?

I went to Portugal on the strongly-worded advice of both yourself & Thyne. (I'm sure we said in previous letters needed in London. Not understood by us that he intended to desert his wife. Can see penitence)

The finances were to be arranged solely on the basis of the sale of the Solon, Annet, & my contracts I could make for the story of the adventure. (I did some 2,700 of his work & did not do it. I think I was equally he had it support her.)

(I did not get into a mess: the Gods have away of things very well.)

But when you wrote that you intended to misappropriately the way - when you had every reason to believe that I was in danger of prison & starvation - your attitude was clear. And my duty was plain. Nothing can stop you going on with the G.W. - except your own will, and you are ever helplessly divided against yourself.

I brought me your note this AM.

Thanks for Maies' address. I will inform my lawyer. Your exorbitance in supposing that I should want you to negotiate is really too exorbitant!

The Foreman story is this.

He came to me this summer & said "I'm going away for my holiday next week" I said: "Good! I suppose you couldn't pay me that ≈ 2 you owe me for so long?" He then said that the full enjoyment of his holiday was threatened for lack of £5." I said: "The only way out I

can see is to call it £7. " and handed him a cheque for £5 on the spot. He appeared very grateful & went off.

When I was hunting for money to go to London I asked him (at the Langham) for the £7. He said he had not got it at the moment, but was sending surplus books to Withins for sale, & I could rely on his sending the money within one week.

From that day to this I have not had one word from him. He has not dared to deny the debt, which could be the retinal reply to a ^{wrong} demand. But you know well how queer he is on some points. However, his conduct in the matter baffles me utterly.

I have written him on a little full of friendship & sympathy with no reference to the debt; why you should suppose this "unbeliever" I cannot imagine.

About this you write "I was able to prove to him on the story which he told me that he does not owe you the money." Are your premises mixed? Or are you a "hyper-modern" logician?

Dr. L. I'd like to have his side of the tale.

 not for his "pro-German leanings"?

Dear, you:

How could I communicate with Regardie away,
giving no address? I write repeatedly & she never
answered.

I wish you would realize that since
returning to Berlin I have not had one single
penny that I could call my own. Even the
£5 from Settlement is credited into the
very meagre allowance on which I subsist
after a fashion. The worst is that this
privation prevents me doing any thing at
all to help myself. The best is - the Master

come. Which week-end? 22nd Feb or
March 1st?

Thanks very much for doing what I asked re the Settlement.

Have given you message to Gamas. Still can't get the 'happy' idea. You say "A thinks B (whom we both well know to be white) is black". I really can't see ^{that} however deliberately you may have written "black", it implies an insult. Unless you have a subconscious ~~wish~~ wish to denigrate B by using the word black somehow - anyhow - in reference to him. A very curious puzzle in English & Golog.

We can hold a P.M. on the Mandrake letter.

The problem is how to get the composition of Vol III & Golden Tways - they may be sent as the type till we've made arrangements to print. Another vital matter which Regardie threw down.

Dear Mr. Medley,

I ask your advice in re memo following: -

From June 16, 1930 e.v. to August 3 I was living at
89 Park Mansions, Knightsbridge with my wife. I had con-
tinued causes of complaint against her.

- 1) She refused to make any efforts to learn English
- 2) She was constantly drunk in public - often violently,
to the point of vomiting or collapse
- 3) She was always making violent scenes, among friends or
at parties.
- 4) She used to make love to male guests - embracing, kissing
etc. - in public.

August 1. I left for Berlin on important business.

August 3. Wrote my wife full instructions how to
carry on. I also voiced the above complaints, and intimated
that I would not resume normal cohabitation unless these
grievances were redressed.

To this letter I received no answer, except an
entirely frivolous and irrelevant communication mailed after
I had left Berlin on Aug. 13 and returned to London. I received
it, despite an attempt on her part to suppress it, on my
return to London Aug. 24.

August 24. In London. No news of my wife, except
vague rumours that she asked for me in a restaurant where I
occasionally eat, that she was living with some man in a flat
in Hampstead etc.

August 29. Still no news. I am obliged to leave
London on a business trip to Lisbon.

February 1, 1931. e.v. During this last week I have had vague information about my wife; e.g. that she had got a job. This day I hear from Mr. Yorke that her address is 59 (or 51 or 52 or 57 - his figures are almost illegible) Belsize Avenue N.W.3. But I have still no direct communication from her, though I have throughout the whole period since she deserted me, written at frequent intervals.

Friends say that she wants a divorce (and so do I) and a settlement, which is absurd.

I should like to know where I stand, and what steps I can take to be rid of her. I am writing to ask Mr. Regardie if he can furnish any evidence of adultery, or get her to admit it.

Yes: sorry indeed. Come for Eggs! Need not cost
you a penny beyond the fare, if you don't mind
a shakedown in this garret, & sharing the
horse - and donkey - sausage which
is now my main sustenance.

Master had an operation & is now very
ill. The Genies seem to have forgiven
you, & will help feed you.

! Think you ought to come - so many
points to discuss. Send your record!
