I hope you arrived safely in London -
I hope you don't find your job too

How can I get ever my health

never be at rest.

You must realise that I have done

Now do your share and do not
let the old man down.

I am so desperate - that I really
rather - if we cannot live, to be

My life is not worth living - If you people

My article about Aldous Huxley's "Brave New World." Seems like a criticism of Dadaism. The issue is that we are not out to make machines to fit some Utopia, but to make Utopias possible by way of the machine. The worst is that some of the ideas are caricatures of our own!

At least, the book showed as a counter-intuitive idea.

MR. GERALD YORKE

WILL SAY:

I have known Mr. Edward Alexander Crowley, commonly known as Aleister Crowley, since 1928.

I got into touch with him through books and I joined his Order of Occultists at that date. I was then a Director of two Public Companies.

At that time Mr. Crowley was living in Paris and I was living in England.

We became great friends. He showed me the manuscript of a Book he had written some time earlier called "Magic" I was struck by the book and helped him to get it published. I put up £800 of my own money for the purpose. Also I obtained a few subscriptions and by these means together with a guarantee for £1,000 which I gave we were able to publish the book.

This book did not actually come out until 1930 when I paid the last Printers Bill out of my own moneys.

Meantime on 14th December 1928 Mr. Crowley had written to me appointing me to be his Agent and Treasurer.

2

92

On 24th February 1929 he gave me a formal Power of Attorney.

After such appointment members of Mr. Crowley's Order sent their subscriptions to me. They are shown in the accounts which I have rendered to Mr. Crowley's Solicitors.

In 1928 and the early part of 1929 I was engaged actively on Mr. Crowley's affairs. I tried to get people interested in him, took his typescripts to publishers and helped him in many ways.

In 1929 Mr. Crowley after being turned out of France came to London and the Mandrake Press took over the publication of his books. I became Director of the Mandrake Press Ltd. and put in £1,000. Mr. Crowley got a friend to put in £500.

As Director of the Mandrake Press I found there was no ready sale for Mr. Crowley's books and I disapproved of his methods.

One of Mr. Crowley's grievances against me is that the £1,000 which I put into the Mandrake Press was used for the general purposes of the Company and was not reserved for the publication of his books. The Mandrake Press

subsequently went bankrupt.

On 21st September 1930 Mr. Crowley wrote suspending me from all functions and demanding the return of various books and pictures to Mr. Israel Regardie.

Amongst my grievances are (1) Mr. Crowley obtained money from Mr. Watson Turner for publishing his books but used it for his own purposes (2) He left his wife destitute and went to Portugal with another girl. When he went away I had about £60 of his left in the fund. I dealt it out to his wife. His poor wife went through the Work House to Colney Hatch. Before she went I helped her privately. Colney Hatch is still after Mr. Crowley for the bill.

Mr. Crowley's grievances against me are that I had never introduced him and ^{his} ~~Miss~~ Busch to my friends socially or given them letters of introduction to people with capital who might put up money for him.

My experience has lead me to distrust his commercial integrity and his code of morals in private life is not that of my circle.

In June 1932 I thought I saw a way of raising £500 for Mr. Crowley but it failed.

1932

In August, I bought an outfit for Miss Busch, Mr.Crowley's mistress who is a charming woman. I bought the outfit with Mr.Crowley's approval.

It was not until I told Mr.Crowley that I was coming to the end of the moneys I was prepared to advance to him that he threatened proceedings.

In answer to Mr.Crowley's claim as endorsed on the Writ I say as follows :

(1) I delivered my hand to Messrs. Forsythe & Co., an account prepared by me of expenses and payments by me on behalf of Mr.Crowley. That account showed a balance due to me of £800 or thereabouts. In addition to this I have made out other accounts against Mr.Crowley amounting to £507. 6. 6 and £379.15. 6.

(2) All the books, documents and manuscripts which I held on behalf of the Plaintiff were deposited by me with A.G.Dixon & Co. long ago.

On 14th October 1930 I wrote to Dixons to hold the goods to the instructions of Mr.Israel Regardie in accordance with Mr.Crowley's letter to me of 21st September 1930.

95
These books, documents, manuscripts and pictures were subsequently removed by Mr. Regardie to Burns of Esher.

I paid Dixons fees to release them.

So far from money being found due from me to the Plaintiff there is due from Crowley to me £1687 or thereabouts.

In March or February 1930 Mr. Crowley was running a Picture Exhibition in Berlin. I assisted Mr. Regardie in getting the pictures from Burns and despatching them to Berlin. I paid £2.10.0 for transport. I produce the receipt.

I saw the pictures in Berlin but the Exhibition was a failure. As far as I know the pictures are still in Berlin.

On Mr. Crowley's directions I withdrew from Burns and the American Express Co. books and manuscripts including diaries some of which I took to Mr. Crowley at once in Berlin. The remainder I handed to Messrs. Forsythe & Co. his Solicitors in August 1932, but have not yet had a receipt for them. *(I bought these from Korman after A.C. death)*

I cannot conceive on what grounds Mr. Crowley is

asking for damages against me.

Up to the commencement of these proceedings in spite of disagreements I remained friendly towards Mr. Crowley. He brings this action solely for the purpose of delaying my departure for China, As long ago as April last he knew I was going.

I do not quite like the wording of the reference to Mrs Busch, with whom I have no quarrel. She is only his mistress by force of circumstances, since he cannot obtain a divorce while his wife is in Germany Hatch.

I think it of the utmost importance to state that I informed Mr Crowley of my intention to go to China this autumn as far back as last 24/April. I did not receive a letter from his solicitors until 9/8/32. I enclose the correspondence which passed between us. As the list of payments by me to Mr Crowley in 1932 (a copy of which you have) will show, I have paid him £ 2000 this year. It was not until I told him that I was coming to the end of the money which I was prepared to advance him, that he started threatening legal proceedings.

I return draft proof of evidence with a few alterations in the text.

I do not quite like the wording of the reference to Mrs Busch, with whom I have no quarrel. She is only his mistress by force of circumstances, since he cannot obtain a divorce while his wife is in Gelsey Hatch.

I think it of the utmost importance to state that I informed Mr Crowley of my intention to go to China this autumn as far back as last 24/April. I did not receive a letter from his solicitors until 9/8/32. I enclose the correspondence which passed between us. As the list of payments by me to Mr Crowley in 1932 (a copy of which you have) will show, I have paid him £1339 this year. It was not until I told him that I was coming to the end of the money which I was prepared to advance him, that he started threatening legal proceedings.

Another of Mr Crowley's grievances with me is that I have never introduced him to my friends socially, or given him and Mrs Busch letters of introduction to people with capital who might

conceivably put up money for him. The reason which I have stated to him on more than one occasion is that experience has led me to distrust his commercial integrity, while his code of morals in private life is not that of my friends and family.

In 1928 and the early part of 1929 I was rather more active on Mr Crolwey's behalf than the deposition would lead one to believe. I tried to get various people interested in him, and took his typescripts round to various publishers, and helped him in many small matters. When however he came to England in 1929 and 1930 with his Nicaraguan wife, I became somewhat disillusioned. I found ^{as} a director of the Mandrake Press Ltd that there was no ready sale for his books, and that our views as to how he should put himself over did not coincide. I wrote him to this effect in October 1930 and he "suspended" me from all "functions".

At the present moment he and Mrs Busch are using all means in their power to get me to pay their room rent, and a month's advance rent to enable them to move into a cheap flat. In view of the legal expenses to which I am being put, I am declining to do so. I will ~~not~~ write you at greater length in the train, and post the letter from Harbin. Withers and Co.

For the attention of Mr Covell.

Dear Sir.

I will start numbering my letters. No 1 from London returned your copy of my statement with corrections, No 2 from Ostend dealt with some MSS of Mr Crowley's which I found in my room, this is No 3.

I am writing without papers, which I sent round by sea, as railway travel in Manchuria is not yet safe. They will reach me in Shanghai 30/10/32.

Mr. Crowley's Stock.

When I first joined Mr Crowley's order in 1928, I found his affair in the utmost confusion. His books pictures and papers were scattered in Naples, Leipsig, London and Chicago.

Stock A.

In Naples. Consisted largely of pictures. I paid the charges of the American Express Co for transferring them to Paris. I have no detailed knowledge of this stock. When Mr C came to London the pictures joined Stock D in London.

Stock B.

In Chicago. This was, and I believe still is in the hands of Miss Olsen. I obtained a list of the contents of this stock. It was amongst the papers which I handed Mr Regardie at Mr C's request in October 1930.

Stock C.

In Leipsig. I believe in the hands of Miss Kuntzel. It contains the German translations of Mr C's works published by the Thelema Verlag Co. I have never seen or handled this stock.

Stock D. In London.

I collected a few packing cases of books MSS and clothes from J.G. Bailey of 11 Abercairn Road, Streatham. I took the clothes and some of the papers over to Mr C. in Paris. The remainder ultimately I stored with Messrs Dixon.

The bulk of the stock in London was in storage with Messrs Pickfords. It consisted largely of poetry written by and printed at the expense of Mr C. This stock had been damaged

No 3. P. 2.

when Messrs Pickford's warehouse was flooded by the Thames. I settled the claim for damages with Pickfords for their past charges and a cash payment of some £40. I have a letter from Mr C. approving this settlement. The payment is entered in the accounts which I rendered. I employed Messrs Dulau, booksellers of Bond Street to list and value this stock. He wrote me that it would require excellent salesmanship to realise £200 for the whole lot. This is the stock which Mr C. always talks about as being worth thousands of pounds. I understand that it is one of his grievances that I have not sold it for him. I transferred the whole of this stock to Messrs Dixon's where it is stored in my name. It was stored in my name at Mr C's request.

In 1929 the Mandrake Press became the sole agents for Mr C. in England. Messrs Dixon's on my instructions delivered some books to the Mandrake Press. They were still at the Mandrake when I handed over to Mr Regardie in October 1930.

In 1928 accurate lists of Mr C's stock were not available. I had 11 lists and valuations prepared at my own expense, so that if any books were wanted they could be obtained immediately from storage. I handed over the stock and my lists to Mr Regardie in Oct 1930, when I ceased to act as Mr C's agent. Subsequently these stocks have reverted to their previous confusion. Their history is as follows.

Stock E.E.

Magick. This book in four parts was privately printed in Paris during 1929 and 1930. The stock was stored with the printers. 3000 sets were printed though not all were bound. In I think 1930 1000 bound sets were transferred at Mr C's instructions to the Mandrake Press Ltd. I think the number was 1000. In October 1930 I went to North Africa for 3 months. On my return I found that Mr. Regardie had stored them with Messrs Dixon's in my name. I denied liability to Messrs Dixon's for this storage. The books are still with Messrs Dixon's but I have no knowledge as to how many are there. I believe Mr R sent some to Germany and America.

Stock D.

When in October 1930 Mr C. wrote me to hand over all books and papers to Mr Regardie, I instructed Dixon's to send him a copy of their stock list, and in future to take their instructions from Mr R. and Mr C. I also handed over to Mr R my stock lists and papers referring to them. The goods however remained stored with Messrs Dixon's in my name. This was owing to the fact that Dixon's refused to transfer the account until the old storage bill had been paid. It came to some £70, and at the time I was unable to settle it, I denied all liability for future charges.

denied all liability for future charges. I made arrangements for them to be paid some £40 on account in November, and left for North Africa. On my return in January 1931 I paid them a further £15 on account. This enabled Mr Regardie to transfer all the stock except Magick (stock E) to the warehouse of James Burn and Co at Esher, where only a nominal rent is charged. I believe that the bulk of the stock is still there.

In the spring of 1931 I was in correspondence with Mr C. still being a member of his order, though I was no longer acting as his treasurer or agent. Mr C wanted his pictures (stock A) transferred to Berlin. Mr Germer, another member of Mr C's order was arranging an exhibition. They both wrote me asking me to send some of the pictures. Mr Regardie was out of town and the pictures were wanted in a hurry. I got in touch with Mr Regardie, and with a letter from him arranged for all the pictures to be sent carriage forward to Berlin. Even so I had to pay £2.10.0 to the Commercial Transport Co out of my own pocket. The pictures were stored in cases and not listed. I therefore sent the whole lot. The exhibition was held in Berlin about 9 months later. I believe that no picture was sold.

In the Spring of 1932 Mr C wrote me complaining that he had not enough of his papers and in Berlin. I therefore obtained a letter of authorisation from Mr Regardie went down to Esher, and looked through the cases stored there which contained his papers. I did not ascertain whether the file was complete or not as I left it amongst them was the file of stock sheets etc which I had handed over to Mr Regardie in 1930. I did not ascertain whether or not it was complete as I had left it. These papers I took over to Mr C in Berlin. Together with the MSS etc I obtained from stock F (see below) the papers filled one cabin trunk.

Stock F.

When Mr Crowley was expelled from France in the winter of 1928-9, he transferred Stock A to London. He did so with the assistance of Mr Regardie. Ultimately he stored some 7 or 8 packing cases with the American Express Co in London. I have never seen a list of this stock. In the Spring of 1932 Mr C. was behind hand with the storage charges on this stock. The Amexco wrote threatening to sell it unless paid within a week.

Mr C wrote, asking me

In 1928 accurate lists of Mr C's stock were not available. I had 11 lists and valuations prepared at my own expense, so that if any books were wanted they could be obtained immediately from storage. I handed over the stock and my lists to Mr Regardie in Oct 1930, when I ceased to act as Mr C's agent. Subsequently these stocks have reverted to their previous confusion. Their history is as follows.

Stock E.E.

Magick. This book in four parts was privately printed in Paris during 1929 and 1930. The stock was stored with the printers. 3000 sets were printed though not all were bound. In I think 1930 1000 bound sets were transferred at Mr C's instructions to the Mandrake Press Ltd. I think the number was 1000. In October 1930 I went to North Africa for 3 months. On my return I found that Mr. Regardie had stored them with Messrs Dixon's in my name. I denied liability to Messrs Dixon's for this storage. The books are still with Messrs Dixon's but I have no knowledge as to how many are there. I believe Mr R sent some to Germany and America.

Mr C wrote asking me

to save the stock, enclosing a letter of authorisation for me to view and remove it. Accordingly to save the MSS I paid Amexco £6 odd, went through the cases and removed all papers and MSS which I thought important. I did not make a list of them. Some I took over to Mr. C in Berlin, together with papers from Stock B (see P 3). The remainder I kept for safety in my room. I wrote asking MR. C. what he would like me to do with ~~these stock pa/~~ these papers as I was going to China.. I received no reply until Messrs Forsyte and Kerman requested me to deliver the papers to their offices. This I did the next day, but received no receipt. from them.. A cardboard box of papers escaped my notice at the time. I wrote you from O stand as to the best method of returning them *(After A's death I bought them from Kerman. 9.7.9)*

In September 1932 Mr C. sold a number of sets to Messrs Foyles. He withdrew them from the stock at Dixon's without any letter from me, paying them £10 on account, proving that in fact he is responsible for the storage. After this at his request I wrote to confirm to Dixon's that they were to accept his instructions for this stock..

The remainder of this stock is still stored with the printer Mr. Cope in Paris.

In August 1932 the contents of Mr C's flat in Berlin were seized by the landlord for nonpayment of rent. In order to save the MSS I paid the landlord £50 in September 3rd 1932.

Accounts.

Trust Fund.

In 1928 MR.C's assured income consisted only of £80 odd a year derived from a Trust Fund of which his daughter by his first wife is the other ~~Trust~~ beneficiary. In 1928 I became one of the Trustees. In 1932 owing to the death of his first wife (they have been divorced for years) Mr C received and is still receiving full benefit from the Trust Fund, namely a £160 odd. I am still trustee, but shall resign the moment this case comes to court, ~~if/it~~. I have not done so to date, as the appointment of a new Trustee involves legal costs which would be deducted from the income paid to Mr.C. which is small enough already..

Accounts proper.

In 1928 Mr C's assured income was only £80. He was living a precarious existence in Paris relying on the loyalty of the members of his order and upon his wits to augment his pittance. I do not think he was receiving a penny in royalties on his books. He had however plenty of schemes for his rehabilitation. They all depended on his obtaining a headquarters and working up an organisation.. I thought that I could help him. If subscriptions from the members of his order were regularised and his memoirs and other prose typescripts published, he would have enough money to live quietly and complete his life's work. The figure at which I aimed and ~~to~~ which he agreed to be sufficient was ~~£500~~ a year. I therefore became his agent-I did not and do not still know what the term implies legally-and treasurer. At that time I was a director ~~an/~~ of the Mexican Railway, and Director and Secretary of H Pontifex and Sons. I was only able to devote my spare time to Mr C's affairs, for which I received ~~and did not~~ ~~any~~ remuneration. I opened a publication account in my own name with the Westminster Bank, Cavendish Square Branch, with a personal payment of ~~£200~~, and wrote round to ~~the~~ some 8 members of his order with whose addresses he supplied me, in an attempt to regularise their subscriptions. The monies received from them as a result of this appeal are shown under their various names in the accounts--Jacobi, Smith, Wolfe, Olsen, and I think Windram. Of these Jacobi is the only one to my knowledge who made and still makes a regular monthly contribution (of 20 dollars).

Another member of the order Karl Germer was engaged to a Miss Eaton in America. At his and Mr Crowley's instigation together with a personal guarantee for me for repayment with a little interest in 1944, Miss Eaton put up £1000, which she sent me in instalments, and which I duly paid into the account. She subsequently put up more money but not at my instigation. She

had by that time married Mr. Germer. When this money was sent to me for Mr C. it appears in the accounts, but a considerable quantity was I believe paid to Mr. C. direct, and of that I have no account. In the main the Germans kept Mr C from 1929-December 1930. They did so out of capital, and as a result are now penniless.

When I first started these accounts, the idea was that Mr C should no longer be worried by finances, but should live on £10 a week, sent him by me out of the Publication fund in London. Mr C. however was quite unable to keep his expenses

within this limit. As a result there were often moments when the fund was empty. Mr Germer would then advance money to the fund from time to time, which I repaid him and myself when more money came in. The total amount which I myself advanced without repayment was £800, as shown in the accounts. I did not consult Mr C when refunding Mr. Germer or myself for monies advanced.

I have no intention of pressing Mr C for repayment of the money which I have advanced him and spent on his behalf. It would indeed be waste of time seeing that his present assured income is under £200 a year. But if he brings a suit against me for damages as he has threatened, I will press my claim for repayment.

In about August of 1930 Mr C decided to desert his second wife, and go to Portugal with a young German girl, Miss Yaeger. He left his wife, who is a Nicaraguan, and at that time spoke very little English, behind in London without any money. I therefore paid her out of the balance of the publication fund against Mr C's wishes, for he wrote me to send him the money for his own expenses in Portugal. I had paid her some £60, before he "suspended me from all activities" and I handed the account over to Mr Regardie. I maintained then, and still believe that it was ~~more~~ better for Mr C. that she should receive something than that he should run the risk of a prosecution for not supporting her. The money which I paid her is shown under her name in the accounts. Later I helped her out of my own pocket. She would not however help herself by working for a living, but drifted I believe to the Embankment, and from then to the workhouse, where I visited her. From there she was certified insane, and sent to Colney Hatch, where I think she still is. I understand that the L.C.C. are anxious to obtain Mr. C.'s address with a view to prosecuting him for payment. I must leave it to you whether you think it to be in my interest that they be sent the name of his solicitors. If you think it would damage his claim against me, please send the L.C.C. the address. He has received nearly £400 from me this year, of which I believe he has sent nothing to her.

No 3. P 7.

I believe that Mr C can produce a letter from me showing that I approved of his going to Portugal. But this was before I realised that he was taking Miss Yaeger with him, and when I still thought he intended to make some provision, no matter how small for his wife.

In October 1930 Mr C. "suspended me from all Functions", I gave you the letter he wrote me about this. I then handed the publication account over to Mr Regardie, instructed the Bank to accept his signature, and warned them that the account was not to be overdrawn. I then left for North Africa. The account however remained in my name. There was only some £30 left, and I did not bother to have it transferred. Mr Regardie however used it largely for his own purposes, closing the account in August 1931 with a payment to himself of £3. When making up the accounts for Mr C in August 1932, I included the period during which Mr R handled the fund. The details are shown under Mr R's name in the accounts.

I have been in touch with Mr C by correspondence ever since October 1930. Twice I visited him in Berlin, and I have seen a lot of him since he has been in London this year. I told him in April of this year that I was going to China at the end of August. It was not until the end of August that through his solicitors he asked me to make out these accounts.

There are a few small payments whose origin escapes me. These I posted to "miscellaneous sales". At this distance of time I cannot give an exact account of what books were sold. They mostly, if not all consisted of sets of Magick sold by Mr Smith in Los Angeles. I do not think I sold more than a dozen sets myself. But of this I am certain. All money received is shown by me in the accounts.

The Mandrake Press, and the Mandrake Press Ltd.

In 1929 when Mr C came to England the Mandrake Press entered into a contract with Mr C. to publish four or five of his works during a period of I think 2 years. The main item was Mr C's Confessions in 4 or 5 volumes. E Goldston, a bookseller in Museum Street, and P R Stephenson were the directors. Mr C gave me power of attorney to arrange and sign this contract. I played an active part in the negotiations, but as Mr C. was in England, he signed the contract himself. The Mandrake Press published 2 volumes of the Confessions, a small volume containing 3 short stories entitled "Strategem", and a novel, Moonchild.

Mr Goldston then decided to go out of the publishing business. Major Thynne then organised the Mandrake Press Ltd which took over the assets and liabilities of the Mandrake Press. I put in £1000, and became a director. The other directors were P R Stephenson, and McCullum. At Mr C's instigation the Germans agreed to invest £1000, but Mr C diverted £500 to his own pocket, so that the Mandrake Press Ltd only received £500 of the money promised them from this source. They published "The Legend of Aleister Crowley", the third volume of Confessions, and a volume of short stories called "Golden Twigs" were in proof state when the company went into liquidation. Of course other books beside Mr Crowley's were published and at the printers when the crash came.

As part from publishing Mr C's books the Mandrake Press also became Mr C's sole agent in England. Accordingly on Mr C's instructions they were sent 1000 sets (I think) of Magick which had been privately printed by Mr C in Paris. These arrived about August 1930. The Mandrake Press decided not to market them until after the 3rd volume of Confessions and Golden Twigs had come out. Otherwise the market would have been flooded with his works.

Some time ago I gave Mr C a list of addresses of all people and booksellers who had ordered books of his from the Mandrake Press and the Mandrake Press Ltd. This proves that there was no sale for Mr C's works. He was paid £100 advance royalties, and I do not think received a further payment from the Mandrake Press Ltd. Mr C maintains that the failure of his works to sell was due to lack of enterprise on behalf of the Press. Certainly they had not sufficient capital to advertise extensively. In this I disagree with Mr C. Events have proved that there is no ready sale for his works in England at the moment. Surely Mr C has to prove that there is a market for his works in England before he can claim damages from me because they have not sold. His writings and pictures are his only assets. The Press went bankrupt when publishing his works, and his picture exhibition in Berlin in 1931 did not bring about the sale of a single picture.

Dear Sir.

I enclose copy of a bill which I have just received from Messrs Dixon, and the draft of a letter which I wrote the 19/3/31, and ~~to which I believe they sent no reply.~~

The history of my dealings with Messrs Dixon is ~~that in I think 1928 I stored with them in my name a vast quantity of books belonging to Mr Crowley.~~ contained on page 4 section 2 of my answer to Mr Crowleys writ. The books in question were stored in my name. I enclose draft of a letter which I wrote them 19/3/31 denying liability for the account after 31/12/31. To the best of my recollection I cleared off the account up to that date.

Sometime in August 1932 I gave Mr Crowley a note ~~to~~ ~~the~~ ~~effect~~ or else wrote to Messrs Dixons that the goods ^{now} stored in my name should be held to the account of Mr Crowley whose property they were.

Now out of the blue comes a bill for £77 odd for transactions which have occurred to Mr Crowleys order whilst I have been in China. I deny responsibility and refuse to pay. All accounts since my departure for China in October 1932 have been rendered direct to Mr Crowley and I see that on May 2 he paid something on account. Had they written me sending in an account before I should at once have denied all responsibility.

In I think August of 1932 when I was still in England they rendered me an account which I refused to meet and handed to Mr Crowley. Mr Crowley then paid them something on account himself. The account was then I believe some twenty pounds.

I have not answered their account dated 31/1/33, which through an oversight on the part of my brother in England I only received yesterday. Will you please write them strongly on the matter and handle it for me.

30th November, 19 33.

Dear Mr. Yorke,

I have not heard anything of Crowley for months.
 I presume therefore things have gone to sleep.

You have the right to apply for an Order to dis-
 continue the action for lack of prosecution but probably you
 would rather let the matter sleep. If I am right as to this
 you would probably like to have my firm's account which I
 enclose.

Yours sincerely,

14th February 1935.

Dear Mr Yorke,

The first meeting of Crowley's creditors was held to-day. I sent my Managing Clerk to attend the meeting for the purpose of ascertaining whether any mention was made with regard to the Action commenced against you and also to find out whether there were any assets in the estate.

I understand that Crowley's liabilities amounted to approximately £5000 and he has apparently informed the Official Receiver that he has a pending action against you which, assuming that he will be successful, will provide sufficient means to make his estate solvent. My clerk informed the Official Receiver that the action was commenced over two years ago and that nothing had been done since I entered an Appearance to the action on your behalf, and he intimated that you had a perfectly good Defence to the Action and if necessary

would defend it. The Official Receiver invited any creditor to put up sufficient money to enable the action to proceed but nobody accepted the invitation.

You are actually entitled to apply to the Court to dismiss the action for want of prosecution but in view of the fact that you are unlikely to obtain the cost of doing this from Crowley, I think it better to leave the matter where it is.

Yours sincerely,

J. W. Withers

Gerald Yorke Esq.,
c/o, Hongkong & Shanghai Bank,
SHANGHAI.

Gerald Joseph Yorke was born on December 10th 1901 as a seven months child. It is an almost universal characteristic of such premature birth that the native lacks moral stamina.

In 1927 I heard from a very old member of the Order, Mr. J. G. Bayley, that Mr. Yorke had been studying the Equinox and other of our works and wished to get into touch with me. I entered into correspondence with him, ultimately suggesting that he should call upon me. He, therefore, called on me at the Hotel Foyot, Paris on the 31st of December 1927. He was anxious to obtain certain unpublished Manuscripts, and I allowed him access to these.

He came over again to Paris in the Spring of 1928. By this time he was definitely anxious to join the Order, and to undergo a course of personal training. He also urged me to help him to break himself of the habit of masturbation. I agreed to help him, and we proposed to spend some weeks together in the summer in the South of France, so that I might test his progress in the course of training which I appointed for him, and give further instructions.

He further agreed to assist in the publication of Part III of Book 4, my textbook on Magick.

With regard to the finances of the publication, Yorke represented to me that with my assets I ought to be making a much larger income than I was actually doing, and said that, if my affairs were handled by a good man of business, I should be making several thousand pounds a year. He pointed out that he was himself a Director of the Mexican Railway, of Pontifex & Sons Ltd., Alfred Emanuel Ltd., and other important firms. He spontaneously offered his services which I accepted. I executed in his favour a very wide Power of Attorney, so that he could handle the whole of my stock and undertake any business transaction on my behalf. I also executed a will, making him my sole residuary legatee with remainder to Karl Germer. I also made him a trustee of the E. A. Crowley settlement. The date of this last appointment is December 31, 1928.
