of any player which will bring to him the
best results to greatest skill. This
can be arranged by having a special
case, The Devil, whose appearance
is forced by the rules, as follows:
such when it appears, it may or
may not sum up the whole
position.

12. The object of play at the
Kamistone as in chess is a the
game should not be won little
by little, as in whist; until the
last move is played the in-
play is to be continued.

13. There is a need for
need for more as in the
The game is a last type of the
4 me which distinguishes

of any play or which will bring to pass the
best he has to go to skill. This
can be arranged by having a special
case. The Devil, whose appearance
is forced by the rules, following
suit when it appears, it may or
may not sum up the whole
position.

12. The object of play is to be
cumulative as in chess, i.e. the
game played not be won little
by little, as in whist, until the
last card is played the im-
mediate purpose is to win.

13. There is a need for me
This may be a type of the
7 me which direct

of any player which will bring to play the
best he has to greatest skill. This
can be arranged by having a special
case, The Devil, whose appearance
is forced by the rules, as follows:
suit when it appears, it may or
may not sum up the whole
position.

12. The object of play sh^d be
continuous as in chess, i.e. the
game sh^d not be won little
by little, as in whist, until the
last card is played. The
should be continuous.

13. There sh^d be no
need for memory in Bridge.
This requires a new type of the
game which distinguishes

of any player which will bring to pass the
best he does to greatest skill. (This
can be arranged by having a special
case, The Devil, whose appearance
is forced by the rules, as follows:
suit when it appears, it may or
may not smash up the whole
position.

12. The object of play at the
Rummy game as in chess, is the
game played not to win but to
try little, as in whist; until the
last card is played the winner
should be decided.

13. There should be a
need for memory as in Bridge.
This requires a new type of the
game which does not require

of any play which will bring to pass the
best results of greatest skill. (This
can be arranged by having a special
case, The Devil, whose appearance
is forced by the rules, so that
suit when it appears, it may or
may not smash up the whole
position.

12. The object of play sh. be
continuous as in chess, & the
game plan sh. not be won little
by little, as in whist; until the
last card is played the
player should be uncertain.

13. There should be a
need for memory as in Bridge.
This requires a new type of thinking
& more direct & forceful.

of any player which will bring to play the
best hand & greatest skill. (This
can be arranged by having a special
card, The Devil, whose appearance
is forced by the rules, as a follow-
up. When it appears, it may or
may not sum up the whole
position.

12. The object of play should be
continuous as in chess &c. the
game should not be won little
by little, as in whist &c. the
last card is played & the winner
should be awarded.

13. There should be a
need for more as in chess.
The game is a low type of thinking
& one which does not require

Besides making the player liable to a type of mistake which is annoying, & not instructive.

(Observe that in chess there is no call whatever upon memory of the moves played. Chess is a higher kind of memory, that of general principles & their illustration by published games & analyses.

14. There should be no templates to turn, & confusion. A player waiting his turn should be fully occupied in studying the position.

E.g. 22 Apr + 16 HQ P.E

2 cards unknown till end;
they modify result in toto.

Besides making the player liable to a type of mistake which is annoying & most instructive.

(Observe that in chess there is no call whatever upon memory of the moves played. It requires a higher kind of memory, that of general principles & their illustration by published games & analyses.

14. There should be no temptation to hurry & confusion. A player waiting his turn should be fully occupied in studying the position.

Ex. 5. 22 Apos + 16 K Q P E

2 can do unknown K & Q and they inevitably result in to.

Besides making the player liable to
type of mistake which is annoying &
not instructive.

(Observe that in chess there is
no call whatever upon memory
of the moves played. It requires a
higher kind of memory, that of
general principles & their illustration
by published games & analyses.

14. There should be no temptation
to hurry & confusion. A player waiting
his turn should be fully occupied in
studying the position.

E. S. 22 Aces + 16 K Q P E

2 cards unknown 110 and,
they modify result in 6 to 1.

Besides making the player liable to
type of mistake which is annoying &
not instructive.

(Observe that in Chess there is
no call whatever upon memory
of the moves played. It requires a
higher kind of memory, that of
general principles & their illustration
by published games & analyses.

14. There should be no temptation
to hurry & confusion. A player waiting
his turn should be fully occupied in
studying the position.

E.g. 22 Aces + 16 K Q P E

2 cards unknown to each,
they modify result in 6 to 1.

Besides making the player liable to
type of mistake which is annoying &
not instructive.

(Observe that in chess there is
no call whatever upon memory
of the moves played. It requires a
