The Quick Path to Great Bliss

1. The Yoga of Sleep

The first of these is the 'yoga of sleep'. In order to practice this, as you lie down to sleep at night, generate yourself as Vajrayogini with one face and two arms, inside the double tetrahedral mandala. When you lie down, place your head in Guru Vajradharma's lap. Unlike Vira Vajradharma, who holds a damaru and skull-cup and supports a khatvanga, Guru Vajradharma holds a vajra in his right hand and a bell in his left. You imagine placing your head in his lap. If you go to sleep like this, then your sleep is extremely wholesome and virtuous. In contrast, if you go to sleep with the mind dominated by attachment, anger or confusion, your entire sleep becomes non-virtuous.

2. The Yoga of Rising

The next yoga is the 'yoga of rising'. Upon awakening, you should imagine being roused by the sound of damarus and by the mantra of Vajrayogini, which is called the 'three OM' mantra. The mantra is being spoken and the damarus sounded by the dakinis of the three abodes, and the sound is coming from the dear light. Then, as you get out of bed, you should do so while continuing to generate yourself as Vajrayogini. As you wash your face and so on in the morning, imagine that you are washing your face as Vajrayogini. As you dress, you are putting on your clothes as Vajrayogini. Every activity you do at the start of the day should be done with this mindfulness of yourself as Vajrayogini. In each case you are offering the bathing, offering the clothes and so forth to Vajrayogini, so that these activities become virtuous.

3. The Yoga of Tasting the Nectar

The third yoga is the 'yoga of tasting the nectar'. This is very straightforward. The nectar should be in some type of vessel. It could be a cup, but definitely one that has a lid. What you are experiencing is called the inner offering (nang mchod). The actual substance can be either alcohol or tea, into which you dissolve a blessed nectar pill which has been blessed by a qualified lama. Dip your left ring finger into this vessel filled with alcohol or tea, and draw a triangle in a counterclockwise direction on your right palm. The three points of the triangle symbolize the three syllables OM AH HUM, which you recite as you draw the triangle. OM is on the base of your palm, AH on the right and HUM on the left. Then dip your finger into the nectar and place a drop in the center of the triangle three times, so that the three drops merge, and then touch it to your tongue and taste it, while imagining that you are experiencing great bliss indivisible with emptiness. The OM AH HUM is an extremely profound mantra, and has an especially great blessing.

4. The Yoga of the Immeasurables

Going for Refuge

In the space before me stands Guru Chakrasamvara, father and mother, encircled with a host of figures—and my root and lineage Gurus, the yidams, Three Jewels of Refuge, Attendants (of the Cemeteries) and guardian protectors.

Imagining yourself and all sentient beings going for refuge, recite three times:

I and all living beings equal (in number) to the extent of space, from this time forth until the attainment of the essence of Enlightenment, go for refuge to the glorious sacred Gurus.

We go for refuge to the Fully Enlightened Bhagavan Buddhas.

We go for refuge to the sacred Dharma teachings.

We go for refuge to the Sangha community of Arya Noble Ones. (3 or 7x)

Generating Bodhichitta

Generate bodhichitta and the four immeasurables while reciting three times:

Once I have attained the state of a Fully Enlightened Buddha, I shall free all beings from the ocean of samsara's suffering and lead them all to the bliss of Full Enlightenment. It is for this purpose that I shall practise the stages of Vajrayogini's path. (3x)

Prostration and Request to the Objects of Refuge

I prostrate to and take refuge in the Gurus and Three Precious Gems, and request you to bless my mind-stream with waves of inspiring strength.

Due to reciting this:

The objects of refuge before me melt into the form of white, red and dark-blue rays, which dissolve into me so that I receive their blessings of body, speech and mind.

Instantaneous Self-Generation

Instantaneously, I arise as the Venerable Vajrayogini.

Blessing the Inner Offering

Open the nectar container 🍷 and purify the inner offering either with the mantra emanating from the four mouths or with the following:

OM KHANDAROHİ HUM HUM PHAT

OM SVABHAVA SHUDDHA SARVA DHARMAH SVABHAVA

SHUDDHO HAM

[Everything] becomes emptiness.

Within a state of Voidness, from **YAM** comes a wind (mandala); from **RAM** a fire (mandala), from **AHs** a grate of three human heads, on top of which from **AH** comes a broad and expansive skullcup. Inside it, from **OM**, **KHAM**, **AM**, **TRAM** and **HUM** come the five nectars, and from **LAM**, **MAM**, **PAM**, **TAM** and **BAM** the five meats, each marked with these syllables. By the wind moving and the fire blazing, the substances inside the skullcup melt. On top of

these, from a **HUM**, there arises a white upside-down khatvanga which melts and falls into the skullcup, whereby these substances become the colour of mercury. On top of this, there comes three garland strings of the Sanskrit vowels and consonants stacked on top of each other. These transform into **OM AH HUM**, from which light-rays (emanate) and hook back nectar of pristine awareness from the hearts of all the Buddhas, Vira-heroes and Yoginis of the ten directions. By this being added (to the nectar in the skullcup), it increases and becomes huge.

OM AH HUM (3x)

While reciting OM AH HUM dip the ring finger of the left hand into the nectar container and draw a triangle on the palm of the right hand (3x).

Blessing the Outer Offerings

Now bless the two waters, flowers, incense, lights, perfume, food, and music. Take up ॐ and ॐ.

OM KHANDAROHİ HUM HUM PHAT

**OM SVABHAVA SHUDDHA SARVA DHARMAH SVABHAVA
SHUDDHO HAM**

[Everything] becomes void.

Within a state of Voidness, from **KAMs** come skullcup vessels, inside of which from **HUMs** come the offering substances. By nature they are void; in aspect they have the forms of the individual offering substances. Their function is to confer distinguished, uncontaminated bliss as objects to be enjoyed by the six cognitive powers.

Do the mudras 🙏 while reciting:

OM ARGHAM AH HUM
OM PADYAM AH HUM
OM VAJRA PUSHPE AH HUM
OM VAJRA DHUPE AH HUM
OM VAJRA DIPE AH HUM
OM VAJRA GANDHE AH HUM
OM VAJRA NAIVIDYA AH HUM
OM VAJRA SHABDA AH HUM 🙏 🙏

Return to ordinary appearance.

Vajrasattva Meditation

Develop regret for negativities.

On the crown of my head, on a lotus and moon seat are Vajrasattva father and mother, their bodies white in colour, with one face and two arms holding vajra and bell and cleaver and skullcup, and embracing each other. The father is adorned with the six mudra-ornaments and the mother with the five mudra-ornaments. They sit in the vajra and lotus positions. In his heart, on a moon-disc is a **HUM** encircled by the mantra-rosary, from which cascades a stream of white nectar, cleansing me of all sickness, evil spirits, black karmic debts and obstacles.

OM VAJRA HERUKA SAMAYA/ MANU PALAYA/ HERUKA TVE
NOPA TISHTA/ DIHDHO ME BHAVA/ SUTOSHYO ME BHAVA/
SUPOSHYO ME BHAVA/ ANURAKTO ME BHAVA/ SARVA SIDDHI
ME PRAYACCHA/ SARVA KARMA SUCHAME CITTAM SHRIYAM
KURU HUM/ HA HA HA HA HO BHAGAVAN/ VAJRA HERUKA
MAME MUNCHA/ HERUKA BHAVA/ MAHA SAMAYA SATTVA AH
HUM PHAT (21x)

Recite the mantra twenty-one times and then contemplate:

Vajrasattva father and mother dissolve into me and my three gateways become inseparable from the body, speech and mind of Vajrasattva.

5. The Yoga of the Guru

Visualization

In the space before me, established out of the reflexive appearance of the pristine awareness of non-dual purity and luminous clarity, comes a square celestial mansion complete with four doorways, ornaments, archways and all the standard parts. In the centre of it, on a jewelled throne supported by eight great lions, on variegated lotus, moon and sun-disc cushions sits in actuality my kind root Guru, but in the form of Buddha Vajradharma, with a red-coloured body, one face and two arms crossed at his heart, holding vajra and bell. His hair is tied up in a knot on top of his head and he sits with his legs crossed in the vajra position. In the prime of his youth, he is at the budding age of sixteen. He is adorned with silk scarves and the bone and jewelled ornaments. Starting in front of him and circling around counter-clockwise sit all the lineage Gurus from Buddha Vajradhara to my own root Guru. Each is in the form of Vira Vajradharma, with a red-coloured body, one face and two arms with the right playing a damaru that reverberates with the sound of Bliss and Voidness, and the left holding at his heart a skullcup filled with nectar. With his left elbow each supports a khatvanga and sits with his legs crossed in the vajra position. Adorned with the six bone ornaments, each is vibrant in the prime of his youth.

The main figure and all his entourage have an **OM** at their forehead, an **AH** at their throat and a **HUM** at their heart. (*Play ♀♥ from here until the end of the paragraph.*) From the **HUM** at their hearts, light-rays emanate (drawing forth) from their natural abodes the Gurus, yidams and hosts of their mandalas' deities, the Buddhas, Bodhisattvas, Vira-Heroes and Dakinis, together with hosts of Dharma-protectors and Guardians.

OM VAJRA SAMAJAH
JA HUM BAM HO 🏹

Each becomes of an essence incorporating all the objects of refuge.

Kusali Tsog Offering

Visualize yourself before Vajradharma.

My own mind, as the Lady of Dakini Land (the size of) a mere thumbnail, emerges from the crown of my head, and goes before my root Guru face-to-face, and then comes back again. She slices off the crown of the head of my old body and places it on top of a grate of three human heads which has spontaneously appeared. She chops up the rest of my flesh, blood and bones, heaps it inside and by staring at it with wide-open eyes, purifies, transforms and increases it into an ocean of nectar.

OM AH HUM HA HO HRIH (3x)

Open Inner Offering container ♥ and hold in right hand; sprinkle with left ring finger while reciting OM AH HUM.

From my heart emanate innumerable goddesses holding skullcups. With these skullcups they scoop up nectar and offer it to the guests, who partake of it by drawing it up through a straw of vajra-light (which appears from each of) their tongues.

I offer this nectar and offering substances to bind me closer to my root Guru who is the essence of the four Buddha Bodies. May you be pleased.

OM AH HUM (7x)

I offer this nectar and offering substances to bind me closer to the lineage Gurus who are the sources of the actual attainments. May you be pleased.

May you be freed.

OM AH HUM (7x)

By having made these offerings, all the guests become satiated with uncontaminated bliss. The sentient beings as well become freed from all obstacles and attain the Dharmakaya. Receiving the Blessings of the Four Empowerments

Oh Guru, incorporating all objects of refuge, to you I make requests.

Bestow on me please waves of inspiring strength.

Confer on me fully the four empowerments, and bestow on me please the Enlightened State of the four Buddha-Bodies (3x)

Contemplate that as a result of your requests:

From an **OM** on the forehead of my Guru are emitted white nectar and rays of light. They dissolve into my forehead, purify the black karmic debts and obstacles concerning my body and confer the vase empowerment. The blessings of the Guru's body enter my body.

From an **AH** at the throat of my Guru are emitted red nectar and rays of light. They dissolve into my throat, purify the black karmic debts and obstacles concerning my speech and confer the secret empowerment. The blessings of the Guru's speech enter my speech.

From a **HUM** at the heart of my Guru are emitted blue nectar and rays of light. They dissolve into my heart, purify the black karmic debts and obstacles concerning my mind and confer the wisdom empowerment of pristine awareness. The blessings of the Guru's mind enter my mind.

From the three syllables at my Guru's three bodily places are emitted white, red and blue nectars and rays of light. They dissolve into my three bodily places, purify the black karmic debts and obstacles concerning my body, speech and mind and confer the fourth empowerment, the word empowerment. The blessings of the Guru's body, speech and mind enter my body, speech and mind.

Brief Request

I make requests to you precious Gurus who are the essence of all the Buddhas of the three times. I request you please to bestow on my mind-stream waves of inspiring strength. (3x)

Absorbing the Gurus

Having been thus requested, the encircling lineage Gurus dissolve into my root Guru at the centre. Then my root Guru as well, out of his affection for me, melts into the form of red light, which enters me through the crown of my head and at my heart transforms into the form of a red syllable **BAM** which is mixed inseparably with my own mind.

6. The Yoga of Self-Generation

Bringing Death into the Path of the Truth Body

This very syllable **BAM** becomes bigger and bigger until it becomes equal to the infinitude of space, whereby all the environment and the beings within become of the nature of Bliss and Voidness. Once again, gradually condensing from infinity down, it becomes an extremely minute syllable **BAM**, which in stages dissolves up to the squiggle. Then, even the squiggle (dissolves) becoming the non-objectifying Dharmakaya of inseparable Bliss and Voidness.

OM SHUNYATA JNANA VAJRA SVABHAVA ATMAKO HAM

Bringing the Intermediate State into the Path of the Enjoyment Body

Within a state of Voidness in which all appearances have been condensed like this there arises what in essence is my own mind holding the pristine awareness of non-dual Bliss and Voidness, (but) in the form of an upright red syllable **BAM** standing in space.

Bringing Birth into the Path of the Emanation Body

Within a state of Voidness, from **EE** (*in Lantsa script*) comes a red, double tetrahedral reality source, inside of which from an A comes a white moon mandala with a shade of red. On top of it, arranged counter-clockwise, rests the mantra:

**OM OM OM SARWA BUDDHA DAKINIYE VAJRA VARNANIYE VAJRA
VAIROCANIYE HUM HUM HUM PHAT PHAT PHAT SVAHA.**

As the syllable **BAM** in space, I see the moon and, propelled by (the wish) to take birth in the centre of it, I (descent and) stand in the centre of the moon. Light-rays emanate from the moon, and the syllable **BAM**, as well as from the mantra-rosary and make all the environments and beings of samsara and Nirvana into the nature of Vajra Yogini. These gather back and dissolve into the syllable **BAM** together with the mantra-rosary, whereby they transform into the supporting mandala and supported deities, which appear fully all at once.

Checking Meditation on the Mandala

Furthermore, there is the vajra ground, fence, tent and canopy, outside of which blazes a mass of five-coloured flames swirling counter-clockwise. Within, it is encircled with the eight great cremation grounds such as the “Ferocious One” and so forth. In the centre of these is a red, double tetrahedral reality source, with its broad top facing upwards and its fine point sticking downwards. Except for the front and back, the four corners are each marked with a pink bliss swirl whirling counter-clockwise.

Within the reality source is an eight-petalled variegated lotus, in the centre of which on top of a sun mandala I arise in the bodily form of the Venerable Vajrayogini. With my outstretched right leg, I tread on the breasts of red Kalarati. With my bent left leg, I tread on the back of black Bhairava who (is on his stomach) with his head facing backwards. My body is red in colour, with a brilliance like the fire of the aeon of destruction. I have one face, two arms and three eyes which look up towards Dakini-land. With my right hand, I hold a downwards-facing, outstretched cleaver marked with a vajra. With my left I hold up (in the air) a skullcup filled with blood which I partake of with my upturned mouth. With my left shoulder I support a khatvanga marked with a vajra, from which hangs a damaru, bell and a triple banner. My glistening, black hair covers my back down to my waist. In the prime of my youth, my desirous nipples full (and erect), I experience ever-enhancing Bliss. I have five dried human skulls adorning my head and a long hanging necklace of fifty dried (skulls). Naked, I am adorned with the five mudra-ornaments, standing in the centre of a blazing fire of pristine awareness.

7. The Yoga of Purifying Migrators

At my heart, inside a red, double tetrahedral reality source is a moon-mandala, in the centre of which is a syllable **BAM** encircled with the mantra, from which light-rays emanate going out from the pores of my skin. Striking all sentient beings of the six classes, they cleanse them of their black karmic debts and obstacles, together with their instincts, and transform them all into the bodily form of Vajrayogini.

8. The Yoga of Receiving the Blessings of the Heroes and Heroines

The Body Mandala

The syllable **BAM** at the centre of the moon-seat and reality source at my heart splits open and from the nature of my four bodily elements becomes the seed-syllables of the four elements, **YA RA LA VA**, situated on and of the nature of the four branch energy-channels of my heart, such as “the Desire One” and so forth, which are in the four directions. These transform, starting from the left, into Lama, Kandarohi, Rupini and Dakini; and the crescent moon, drop and squiggle that remain of the syllable **BAM** in the centre transform into a Venerable Vajra Yogini who is in the nature of the Unity of my subtlest energy-kernel and creative energy-drop.

In stages beyond them are:

- (a) the energy-channels, such as the “Unchanging One” and so forth, which go to my twenty-four bodily places, such as my hair line and the crown of my head,
- (b) their twenty-four constituent energy drops such as “Tooth”, “Falling on the Necklace” and so forth, and
- (c) the (first) twenty-four syllables of the mantra such as “OM OM OM etc”, which are situated in a circle going counter-clockwise from the east and the nature of which are inseparable from the natures of the energy channels and their constituent energy-drops.

These all transform into:

- (1) the eight Virini-Heroines of the mind-family, namely, Prachandra, Chandakshi, Prabhavati, Maha-nasa, Vira-mati, Kharvari, Lanke-shvari and Druma-cchaya;
- (2) the eight Virini-Heroines of the speech-family, namely Aira-vati,

Mahabhairava, Vayuvegi, Lohaksha, Shyander, Subhadra Haya-karna and Khaganan; and

- (3) the eight Virini-Heroines of the body-family, namely Chakra-vega, Khandarohi, Shaundini, Chakra-varini, Suvira, Mahabala, Chakra-var-tini and Mahavirya.

They are in actuality the yoginis who are non-dual with the Vira-heroes at the twenty-four external sacred places such as Pullir-malaya and so forth. The energy-channels and constituent energy-drops of my eight gateways, such as my mouth and so forth, and the (last) eight syllables “**HUM HUM HUM** etc”, which are of inseparable nature with them, transform into Kakasya, Ulukasya, Shva-nasya, Shuka-rasya, Yama-dadhi, Yama-duti, Yama-damshtirini and Yama-mathani. All of these have the bodily form of the Venerable Lady, complete with all details and parts.

Inviting and absorbing the Wisdom Beings and Merging the Three Messengers

Perform the blazing mudra and while reciting do 🏹 🏹:

PHAIM 🏹

Light rays emanate from the syllable **BAM** at my heart, emerge from between my brows, go to the ten directions and bring forth all the Tatagatha Buddhas, Vira-Heroes and Yoginis - all in the form of Vajrayogini. 🏹 🏹 🏹

DZA HUM BAM HO 🏹

The wisdom beings are summoned, dissolve, remain firm, and are delighted. Now with the lotus-turning mudra followed by the embracing mudra, recite:

OM YOGA SHUDDHA SARVA DHARMA YOGA SHUDDHO HAM

I am the nature of the yoga of purity of all phenomena.

Putting on the Armor

At my bodily places there arise moon-mandalas, on top of which at my navel is a red **OM BAM** in the nature of Vajra-varahi. At my heart a blue **HAM YOM** as Yamani; at my neck a white **HRIM HOM** as Mohani; at my head a yellow **HRIM HRIM** as Sacha-lani; at the crown of my head a green **HUM HUM** as Sam-trasani; and at all my limbs a smoke-coloured **PHAT PHAT** in the nature of Chandika.

Inviting the Empowering Deities and Receiving Empowerment

Perform the blazing mudra  three times,

PHAIM

and while reciting the following play  

From the syllable **BAM** at my heart light-rays emanate and bring forth the empowering deities, the supporting Chakra-samvara mandala and its supported deities.

“Oh all Tathagata Buddhas, I request you to confer empowerment upon me.”

Having been requested, the eight guardian Dakinis of the doorways and corners scare away interfering spirits, the Vira-Heroes proclaim auspicious

verses; the Virini-Heroines sing Vajra songs and Rupavajra and so forth make offerings. The principal deity gives permission for the empowerment to be conferred; and the four mother-consorts together with Varahi holding jewelled vases filled with the five nectars confer the empowerment on the crown of my head.

“Just as all the Tathagata Buddhas received ablution as soon as they were born, likewise do we now confer the ablution.

OM SARVA TATHAGATA ABHISHEKATA SAMAYA SHRIYE HUM”

Speaking thusly, they confer the empowerment whereby my entire body becomes filled, purifying all my stains, and the excess water that stays on the crown of my head as a protrusion transforms into a Vairochana-Heruka with motherly consort adorning my head.

Offerings to the Self-Generation

(When doing the self-initiation, bless the offerings for self-generation at this point.)

Offering goddesses emanated from my heart make the offerings:

Secret and Suchness Offerings

To perform the secret and thatness offerings visualize:

 As Vajrayogini, I stand in union with Chakrasamvara, who has been transformed from my khatvanga, and generate simultaneous Bliss and Voidness.

(Optional:) As a radiant Yogini, I give up my breasts and they transform into a penis. The two walls of the pure place inside my vagina transform into two bell-like testicles. My stamen-like clitoris transforms into the head of a penis. Thus, I take on the bodily form of Heruka of Great Bliss, [embracing] a secret motherly-consort Vajrayogini, having a nature incorporating all the Dakinis. 

The secret organ of the father transforms from a non-objectifying state (of Voidness) into a white **HUM**, from which comes a white five-spoked vajra and from a **BYA** comes a red jewel head marked at the tip with a yellow **BYA**. The secret organ of the mother transforms from a non-objectifying state (of Voidness) into an **AH** from which comes a red, three-petalled lotus and from a white **DYA** comes a white centre signifying white Bodhicitta and marked at the tip with a yellow **DYA**.

OM SHRI MAHA SUKHA VAJRA HE HE RU RU KAM AH HUM HUM
PHAT SVAHA

From the father and mother being in union, the Bodhicitta melts and when from the crown of my head it reaches my throat (I experience) Bliss. When from my throat it reaches my heart - Supreme Bliss. When from my heart it reaches my navel - Distinguished Bliss. And when from my navel it reaches the tip of my jewel, the pristine awareness of simultaneous (Bliss and Voidness) arises and I remain in single-minded concentration on the inseparability of Bliss and Voidness.

Focused in single-pointed concentration on the significance of Thusness, namely that the three circles of the offering are void by nature, and joining this with the inseparability of Bliss and Voidness as before, all are satiated with the secret offering and the offering of Thusness.

(Optional:) Once more I transform in aspect into the Venerable Lady.

Eight Lines of Praise (optional)

9. The Yoga of Verbal and Mental Recitation

Verbal Recitation

Inside the red double tetrahedral reality source at my heart is a moon-mandala, in the centre of which is a syllable **BAM** encircled with a red mantra-rosary going counter-clockwise. From these, immeasurable rays of red light emanate, cleansing all sentient beings of their black karmic debts and obstacles, and making offerings to all the Buddhas. They bring back the potential and force of their blessings in the form of rays of red light which dissolve into the syllable **BAM** together with the mantra-rosary, thus blessing my mind-stream with waves of inspiring strength.

OM OM OM SARVA BUDDHA DAKINIYE VAJRA VARNANIYE
VAJRA VAIROCANIYE HUM HUM HUM PHAT PHAT PHAT SVAHA

Recite at least as many mantras as you have promised to.

Mental Recitation

*(1) Sit in the sevenfold posture and bring the phenomena source, moon, and mantra letters from the heart down to the secret place if you want to generate bliss, or to the navel if you want to generate a non-conceptual mind, and enclose them with the winds. As if mentally reading the mantra rosary, which stands counter-clockwise in a circle, collect just three, five, or seven recitations. Then, while holding your breath, focus your mind on the pink joy swirls spinning counter-clockwise in the four corners of the phenomena source other than the front and the back, and especially on the nada of the **BAM** in the center, which is about to blaze.*

(2) The red joy swirl at the upper tip of the central channel and the white joy swirl at the lower tip, each the size of only a grain of barley, travel to the heart while spinning furiously counter-clockwise. At the heart they mix and gradually diminish into emptiness. Place your mind in absorption on bliss and emptiness.

10. The Yoga of Inconceivability

Common Inconceivable Yoga

Light rays emanate from the syllable **BAM** together with the mantra-rosary at my heart and pervade all the Three Realms. The Formless Realm dissolves into the upper part of my body in the form of rays of blue light. The Form Realm dissolves into the middle part of my body in the form of red light. And the Desire Realm dissolves into the lower part of my body in the form of rays of white light. I, as well, melt into light in stages from above and below and dissolve into the reality source. That dissolves into the moon,

mandala and that dissolves into the thirty-two Yoginis. They dissolve into the four Yoginis and they dissolve into the Principal Lady of my body mandala.

The Principal Lady as well melts into light in stages from above and below and dissolves into the reality source. That dissolves into the moon and that dissolves into the mantra-rosary. That dissolves into the syllable **BAM** and that dissolves into the head of the **BAM**. That dissolves into the crescent moon and that dissolves into the drop. That dissolves into the squiggle and that as well, growing smaller and smaller, dissolves into the Clear Light Voidness.

Uncommon Inconceivable Yoga

These are the instructions for going to Akanistha pure land without having to leave your body behind. These special extraordinary instructions are to enable you to do this. First you take refuge, and then recite the verse, 'Once I have attained the state of a fully enlightened Buddha, I shall free all beings from the ocean of suffering of cyclic existence, and lead them all to the bliss of full enlightenment. It is for this purpose that I shall practise the stages of Vajrayogini's path.' Then you generate yourself as Vajrayogini with one face and two arms, and all the characteristics.

Then visualize the body of yourself as Vajrayogini as being hollow inside, clean and pure. Through the centre of your body, visualize the central channel, as thin as a straw, but as clear as glass. It is very straight without any bends. Visual-

ize that it ends at your crown, and that it has an opening at that point. On the right side of the central channel is the roma channel (rtza ro ma), red in colour, which ends at the opening of the right nostril. On the left is the kyangma channel (rtza kyang ma), white in colour, which ends at the opening of the left nostril. The lower ends of both the right and left channels are visualized as being slightly lower than the lower end of the central channel, and their lower ends bend toward and almost meet the central channel at its lower tip, three or four finger-widths below the navel. All along the rest of their lengths, both channels are close to the central channel, with only a few millimetres between the central channel and each of the side channels. The left and right channels are slightly smaller in diameter than the central channel, and are the size of a blade of grass.

Next you draw in the energy winds by inhaling through your nostrils, and also visualize you are drawing the energy winds in from your anus, bringing the winds inside and raising them up. The winds come down from your nostrils to your navel, and from your anus up to your navel.

Now, Vajrayogini is standing on the two side channels at the navel. She has no cushion at this time, but she is wearing her ornaments, the bone ornaments, fifty-skull necklace and five-skull crown ornament, cleaver and skullcup and the khatvanga. She is in the nature of your own subtle body and subtle mind.

You should understand that she is in the nature of your own mind, not that you are outside looking in at her, but that you are this Vajrayogini. You should have the divine confidence of being her at the navel.

Now, to exercise the channels and the mind, yourself as Vajrayogini at the navel emanates another Vajrayogini, who goes up through the right channel and emerges through the right nostril, and remains there on the tip of your nose. Meditate on this Vajrayogini on the nose. Now, this small Vajrayogini on the tip of the nose emanates light to the whole surrounding environment, so that everything transforms into the double tetrahedron which is

the mansion of Vajrayogini. Then the rays shine forth again, and purify all sentient beings. You visualize that in this way they are all transformed into the state of Vajrayogini. Now visualize that the whole environment which has become the celestial double tetrahedral mandala of Vajrayogini dissolves into the sentient beings who have become Vajrayogini. Then they all dissolve into one another, and then dissolve into the small Vajrayogini at the tip of the nose of yourself as Vajrayogini.

Then breathe in through both nostrils, and inhale that Vajrayogini at the tip of the nose, which is now one entity with the Vajrayoginis of the environment and all sentient beings. Then this Vajrayogini descends through the left, kyangma, channel, purifying all stains and obscurations within that channel as she passes downward. Then she reaches the Vajrayogini at the navel and dissolves into her.

Then you do the entire procedure as before two more times, drawing the energy winds inward from above and below, then visualizing Vajrayogini standing on the left and right channels, emanating a small Vajrayogini who goes up through the right channel, and so forth, up to the small Vajrayogini coming down and merging again with the Vajrayogini on the left and right energy-channels at the navel. Do this entire procedure three times altogether. This practice is called exercising the powers of the channels.

Now, yourself as Vajrayogini has a small Vajrayogini at your navel, who emanates many rays of dazzlingly brilliant red light, which emerge from the pores of yourself as the larger Vajrayogini. You should visualize this light very clearly. The light is clear as crystal, and shines forth abundantly in all directions, illuminating brightly all of space. Also, the Vajrayogini at the navel in particular should be visualized very clearly.

Then this Vajrayogini at the navel, who is actually your own subtle mind and subtle body, has a strong desire to go to Vajrayogini's pure land, Akanistha. So you have this powerful desire to go to this pure land, and you can hear the sounds coming from there, of melodious singing, bells ringing and damarus resounding.

Now the double tetrahedral mandala and the cushion of lotus and sun dissolve into yourself as the outer Vajrayogini. Then your two legs dissolve into your lower torso, and your arms dissolve into your upper torso. At this point there is nothing outside because the entire environment and all sentient beings have previously been transformed into the mandala and Vajrayoginis respectively, and dissolved into the small Vajrayogini who has come back to your navel. Now you must have the very strong sense of your own mind being inside the small Vajrayogini at the navel, and hold the divine confidence of being that small Vajrayogini, not as if you are looking down at her or from somewhere else, but that you actually are her.

Now your mind at the navel, this Vajrayogini, starts coming up through the central channel to your heart. The two side channels also roll up to the heart, accompanying the Vajrayogini who is rising up to the heart. Now all of the channels are dissolving into that small Vajrayogini.

Now the Vajrayogini comes up to the crown of the head, and as she rises, everything left, that is, the rest of your body, is dissolving into her. As everything completely dissolves into your own mind as this Vajrayogini, you arrive at the crown of the head.

Now you shoot up to Akanistha like a tiny shooting star. Once you are in the pure land, you imagine yourself getting smaller and smaller, and dissolving into emptiness, still remaining in Akanistha. Then you meditate on this emptiness.

Do this practice three, seven, or twenty-one times. You yourself are Vajrayogini with the three channels and a small Vajrayogini at your navel. Each time, you exercise the channels three times and do the complete process of going to Akanistha.

It is essential that after you have dissolved in the pure land, you don't fly back to earth like a bird. In other words, don't imagine yourself coming back. Each time you complete the practice, with yourself meditating on emptiness in Akanistha, simply start over again right here as yourself. Generate yourself as Vajrayogini, and then do the practice. It is actually slightly harmful to imagine coming back down. Simply start again.

After doing this practice the appropriate number of times, visualize yourself as Vajrayogini again, and don the armour, as explained above. Then say the mantra OM SUMBHA NI SUMBHA and so forth. Then engage in the yoga of daily activities, wearing your clothes, eating, all the things you have to do, and then you dedicate all of these activities by saying a prayer of dedication.

These are the instructions for going to Akanistha pure land without leaving your body behind. If you don't go in this life, then you may go at death or in the bardo. There should be no doubt in your mind that you will be led to that state. Even if you are one hundred years old at the time when you go to Akanistha pure land, there you will have the form of a sixteen-year-old. The lifespan there is limitless. Whatever you wish for there appears. Here we have to work for what we want, but there we can receive it from space, as it were. There Heruka with his consort is always present, and will give teachings to you. You can emanate countless bodies in many forms from Akanistha to other pure lands. There is no doubt that all the beings who dwell there will attain the state of Buddhahood of Vajrayogini in one lifetime.

These are the principal instructions on how to go to Akanistha without your mind parting from your body. Unlike the practice of consciousness transference which can shorten your lifespan, these teachings are a very excellent method, because they do not harm your lifespan. If you were to fill a thousand rooms with gold, these instructions would be far more precious. The benefits of these

instructions are very stable. They will not wear out or get used up, nor are they useful only for this life. If you put these into practice, they will be precious to you in all lives. Each of us will die one day, and there is no need to be afraid if you have put this into practice. Panchita Parchen became ordained at the age of one hundred, and subsequently attained the state of Akanistha. There are many meditational deities that you could rely on, but not one is superior to Vajrayogini. You should cultivate this deity as well as you can.

11. The Yoga of Daily Actions

Within a state of Voidness, I instantaneously arise as the Venerable Vajrayogini.

At my bodily places there arise moon-mandalas, on top of which at my navel is a red **OM BAM** in the nature of Vajra-varahi. At my heart a blue **HAM YOM** as Yamani; at my neck a white **HRIM HOM** as Mohani; at my head a yellow **HRIM HRIM** as Sacha-lani; at the crown of my head a green **HUM HUM** as Sam-trasani; and at all my limbs a smoke-coloured **PHAT PHAT** in the nature of Chandika.

To protect the main directions and intermediate directions recite twice (and snap with fingers into the respective directions 🖐️):

OM SUMBHANI SUMBHA HUM HUM PHAT
OM GRIHNA GRIHNA HUM HUM PHAT
OM GRIHNA-PAYA GRIHNA-PAYA HUM HUM PHAT
OM ANAYAHOM BHAGAVAN VAJRA HUM HUM PHAT

The Yoga of the Torma

Set up the outer offerings in the traditional manner and then purify them in the following way:

OM KHANDAROHI HUM HUM PHAT
OM SVABHAVA SHUDDHA SARVA DHARMAH SVABHAVA
SHUDDHO HAM

Everything becomes emptiness.

Within a state of Voidness, from **KAMs** come skullcup vessels, inside of which, from **HUMs** come the offering substances. By nature they are void; in aspect they have the forms of the individual offering substances. Their function is to confer distinguished, uncontaminated bliss as objects to be enjoyed by the six cognitive powers.

Do 🖐️ while reciting:

OM ARGHAM AH HUM
OM PADYAM AH HUM
OM PUSHPE AH HUM
OM DHUPE AH HUM
OM DIPE AH HUM
OM GANDHE AH HUM
OM NAIVIDYA AH HUM
OM SHABDA AH HUM 🖐️ 🖐️

Blessing the Torma

OM KHANDAROHİ HUM HUM PHAT
OM SVABHAVA SHUDDHA SARVA DHARMAH SVABHAVA
SHUDDHO HAM

All becomes void.

Within a state of Voidness, from **YAM** comes a wind (mandala); from **RAM** a fire (mandala), from **AHs** a grate of three human heads, on top of which from **AH** comes a broad and expansive skullcup. Inside it, from **OM, KHAM, AM, TRAM** and **HUM** come the five nectars, and from **LAM, MAM, PAM, TAM** and **BAM** the five meats, each marked with these syllables. By the wind moving and the fire blazing, the substances inside the skullcup melt.

On top of these, from a **HUM**, there arises a white upside-down khatvanga which melts and falls into the skullcup, whereby these substances become the colour of mercury. On top of this, there comes three garland strings of the Sanskrit vowels and consonants stacked on top of each other. These transform into **OM AH HUM**, from which light-rays (emanate) and hook back nectar of pristine awareness from the hearts of all the Buddhas, Vira-Heroes and Yoginis of the ten directions. By this being added (to the nectar in the skullcup), it increases and becomes huge.

OM AH HUM (3x)

Inviting the Guests of the Torma

PHAIM (with blazing mudra 🔥)

(Play 🎵 while reciting the next paragraph:)

From the syllable **BAM** at my heart, light-rays emanate and from Akanistha Buddha-field bring forth in the space before me Vajrayogini encircled by a host of Gurus, Yidams, Buddhas, Bodhisattvas, Vira-Heroes, Dakinis, Dharma protectors and worldly protectors.

From **HUM** on the tongue of each of these guests come a three-spoked vajra through which each partakes (of the offering), drawing up the essence of the torma through a straw of light, the thickness of only a grain of wheat.

Offering the Principal Torma

Offer the torma while reciting three or seven times (with offering mudra 

OM VAJRA ARALIH OH DZA HUM BAM HOH (snap with finger)
VAJRA DAKINIYA SAMAYA STVAM TRISHAYA HOH (3 or 7x)

Offering the Torma to the Mundane Dakinis

Offer the torma while reciting twice (with offering mudra):

OM KHA KHA/ KHAHI KHAHI/ SARVA YAKSA RAKSASA/ BHUTA
PRETA/ PISACA/ UNMATA/ APASMARA/ VAJRA DAKA DAKINYA
DAYA/ IMAM BALIM GRIHNANTU/ SAMAYA RAKSANTU/ MAMA

Outer Offerings (with offering mudras)

OM VAJRA YOGINI SAPARIWARA ARGHAM, PADYAM, PUSHPE,
DHUPE, DIPE, GHANDE, NAIVIDYA, SHABDA  , AH HUM

Inner Offering

Raise Gantha 

OM VAJRA YOGINI SAPARIWARA OM AH HUM

Praise

I prostrate to you, glorious Vajra Dakini.  
You have complete control over your mandala circles and their Dakinis
Possessing the five pristine awarenesses and the three Buddha Bodies,
You protect sentient beings.

I prostrate to as many
Vajra Dakinis as you manifest in,  
Who as ladies engaged in worldly affairs,
Cut off our bondage to preconceptions.

Prayer to Behold the Beautiful Face of Vajrayogini

As the Bliss and Voidness of infinite Buddhas, you appear as whatever worldly or Nirvanic vision is needed, as if in a drama. Oh lovely Lady of Dakini Land, who is one of these appearing here and now, remembering this from my heart, may I be sustained by the bliss of your playful embrace.

In Akanistha Buddha-field, you are simultaneous (Bliss and Voidness), the motherly consort of the Victorious Buddhas. In the twenty-four sacred sites, you are the Lady of the Dakas born from fields. On the gem-laden (earth), you are the physical karmamudra (consort). O Venerable Lady, supreme refuge of me, the yogi, you are the reflexive play of the Voidness that is the very nature of my mind itself.

In the City of the Vajra (-like Dharmakaya), you are the actual BAM (-like pristine awareness) of the sphere of E (-like Voidness). On the (Southern) Continent (where all is) illusion, you showed yourself as a fearsome ogress and as a vibrant, smiling, fair young maiden.

But no matter how much I looked, O Noble Lady, I never gained the security of your being truly existent. Then the youth of my mind, exhausted by its mental creations, found rest and relief in the forest hut of that which is beyond all words.

How wonderful! Please now arise from the (Void) sphere of Dakinis and sustain me by the truth of what it says in the Glorious Heruka King of Tantras, that “even by reading the supreme minor heart (mantra) of the Vajra Queen, one gains realisation”.

In a forest on the outskirts of Odivisha, you nurtured with the bliss of your embrace and kisses Vajra Dr'il-bu-pa, Lord of the Realised Ones, and he came to enjoy the supreme Kiss of Perfection. Please nurture me in the same way. Just as you directly led the Venerable Kusali from an island in the Ganges to the Sphere of Space and (just as you) cared for the glorious Naropa, may you lead me as well to the city of the Blissful Dakinis.

By the force of the compassion of my supreme Root and Lineage Gurus, as well as of the especially profound and quick path of the ultimate secret great tantra, and (by the force) of the pure, selfless wish of myself the yogi, may I quickly behold your smiling face, O Blissful Dakini.

Requesting Fulfillment of Wishes

Oh Venerable Vajrayogini, I request you please to lead me and all sentient beings to the Pure Land of Dakinis. I request you please to bestow on us all mundane and extra-worldly powerful attainments, without exception. (3x)

Request forbearance by reciting:

Whatever mistakes I have made
Through not finding, not completely understanding,
Or not having the necessary capability,
Please be patient with all of these.

OM VAJRA MU 🌸

The wisdom beings, guests of the tormas, dissolve into myself and the worldly
beings return to their own places.

Dedication Prayers

By this virtue, may I quickly gain the
Powerful attainments of the lady of Dakini Land,
By which every single being without exception
Is led to that very land.

At the time of death may protectors, Heroes, Ladies and so forth,
Holding flowers, umbrellas and victory banners,
Offering the sweet sounding music of cymbals and so forth
Please lead me to that Dakini Land.

These are valid Dakinis, valid commitments and

The clear expression of their supremely valid teachings.
By the truth of these (such virtue) becomes the
Causes for I and others to be held in the care of Dakinis.

Extensive Dedication

If you have the time and the wish you can finish with these prayers, which were composed by Tsarpa Dorjechang:

In the ship of the fully endowed human form, flying the white sail of mindfulness of impermanence and blown by the wind of adopting and abandoning in accordance with cause and effect, may I be freed from the fearsome ocean of cyclic existence.

Devoting myself to the crown-jewel of the non-fallacious object of refuge, taking to heart the great aims of living beings who have (all) been my mother, and cleansing myself of all stains of faults with the nectar of Vajrasattva, may I be nurtured by the compassion of the Venerable Gurus.

The beautiful motherly consort of the Victorious Buddhas is the outer Yogini. The syllable BAM is the supreme inner Vajra Queen. The Voidness/Clarity that is the very nature of mind itself is the secret Mother from Dakini-land. May I enjoy the playful Bliss of seeing these, your faces.

The worldly environment is the celestial mansion (coming from) the syllables E. The sentient beings within are Yoginis (coming from) the syllable BAM. Through single-minded concentration on the Great Bliss of their Unity, may whatever appearances (I see) arise as a pure appearance.

Likewise, through the yogas (numbering as many as the ten) directions and the (single) moon, may I eventually be led directly to the City of Knowledge-Holders by the coral-coloured Lady of Bliss with freely-hanging vermilion hair and orange darting eyes.

Having practised in the corpse-laden place with the trunk of a Langali tree (filled) with vermilion red powder and then wandered searching throughout all the Lands, may whichever beautiful Lady to whom the bliss swirl at my forehead curl transfers lead me to Dakini Land.

When the inner Varahi has destroyed the creeping vine of my (preconceptions about) grasping consciousness and the objects it grasps, and the Dancing Lady residing in my supreme central channel emerges from my aperture of Brahma into the sphere of the pathway of clouds, may I embrace and sport with the Vira-Hero Drinker of Blood.

Through the yoga of meditating single-pointedly on the freckle (heated by) the five energy-winds at the lotus of my navel, which brings the kiss of perfection, may my mind-stream be satiated with the Supreme Bliss of the melting of the fragrant-laden (creative energy-drops) in the energy-channels of my body/mind.

When the Beautiful Maiden of the tummo energy-fire of normal Clear Light softens with joy the Youth of the syllable HAM in the central energy-channel with her white smiling, tickling play, may I achieve the Great Blissful State of Unity (of Bliss and Voidness).

When the reddish-black RAM located at the centre of the three energy-channels at my navel has been set ablaze by my upper and lower energy-winds, and its purging flames have scared away the degenerate constituent energy-drops from my seventy-two thousand (channels), may my central channel become completely filled with pure, creative drops.

When the five-coloured creative energy drop in the centre of my brow has gone to the crown of my head, may I be fully satiated by the four blisses that come from the stream of moon-liquid originating from there falling down as far as the stamen of the water-borne (lotus) of my secret organ and then rising up again.

When, by being struck by the five-coloured rays of light emitted from this creative energy-drop, all animate and inanimate objects, such as my own body and so forth, become transformed into clusters of radiant, clear rainbows, may I once again enter the sphere of Bliss and Voidness, the natural ground.

When the Yogini of my own mind - which is a Unity beyond the conventional intellect, the primordial state of Voidness and Clarity that cannot be put into words, the original foundational state free from arising, cessation or enduring - recognises its own face, may I be always nurtured (by you).

Having dissolved my energy-channels, energy-winds and creative energy-drops into the Sphere of EVAM and attained the glory of the Dharmakaya of Great Bliss, which is the very nature of my mind itself, may I nurture all beings as infinite as space with immeasurable Bodies of Form beyond number that manifest as its play.

By the force and power of the blessings of the Victorious Buddhas together with their marvellous (Bodhisattva) sons, of the non-fallacious truth of interdependent origination and (by the force) of my pure selfless wishes, may all the points of my sincere prayers be fulfilled.
